The scientific event is held under the auspices
& the sponsorship of: Medical Association of Athens

**Welcome of the President of the Global Doctors' Hippocratic Institute,
and of the Congress**

Dear Colleagues,
Dear Delegates,

It is a great pleasure and honor to welcome you to the first online Global Congress of the Global Doctors Hippocratic Institute, which is co organized with the f. Minister Mr. Aristotelis Pavlidis President, and the board of the International Hippocratic Foundation of Kos, the President of the Medical Faculty of the University of Thessaly Professor Athanasios Giannoukas with the participation of many Medical Associations from Greece and abroad. The Congress is attended by distinguished Greek and Foreign speakers from 15 countries, while taking place in the midst of the most critical moments for the health of humanity and the survival of our societies. The congress is expected to result in valuable data on the pandemic response and at the same time to emphasize the value of Hippocratic Medical Science, throughout the centuries in combination with the ancient medicine of other countries.

Our goal, as the Global Doctors Hippocratic Institute is to combine the dynamics of Greek Physicians worldwide, and to highlight the results of scientific cooperation between them and along with their colleagues from other countries on the five continents, while placing the Greek Father of Western Medicine at the epicenter. Thus, our first online scientific meeting "Hippocrates unites the five continents", which will take place at the completion of one year of the world-historical pandemic, provides the opportunity to face with the wisdom of the Father of Medical Science, Hippocrates, who, with deep medical knowledge and a thorough scientific observation described the meaning of epidemic and pandemic, 2.500 years ago, and limited successfully the plague of Athens of which Hippocrates awarded with the Golden Medal.

I warmly welcome you all from the country of Hippocrates, wishing you health and progress.

President

Of the Global Doctors Hippocratic Institute, and of the Congress

George Patoulis
